PROFESSIONAL SUMMARY

Highly analytical **Software Engineer** and 300-level Computer Science student with a robust foundation in software architecture, data structures, and algorithmic efficiency. Expertise in full-stack development using React, Next.js, and Node.js, with a specialized interest in AI orchestration and autonomous system design. Proven ability to translate complex technical requirements into high-performance, user-centric software solutions.

TECHNICAL EXPERTISE

Engineering:	Data Structures & Algorithms, System Design, RESTful APIs, CI/CD
Languages:	JavaScript (ES6+), TypeScript, Python, C++, SQL
Frontend:	React.js, Next.js, Tailwind CSS, Redux, UI/UX Design
Backend & Tools:	Node.js, Express, MongoDB, PostgreSQL, Git/GitHub, OpenAI API

PROFESSIONAL EXPERIENCE

Software Development Intern July 2025 – Nov 2025

Technoville Innovation Nigeria

- Participated in the full software development life cycle (SDLC), contributing to the engineering of scalable web applications.
- Developed and optimized front-end components using React.js, enhancing application performance and responsiveness.
- Collaborated on system architecture and API integrations within a professional agile environment.

Freelance Software Engineer Jan 2024 – Present

- Designed and implemented a dynamic movie platform utilizing React Router and TMDB API for real-time data processing.
- Engineered custom full-stack solutions for digital startups, focusing on clean code and modular architecture.
- Provided comprehensive brand identity and UI/UX design services to ensure seamless product experiences.

ENGINEERING PROJECTS

Inbox Zero Agent: Engineered an event-driven AI agent using Next.js and Node.js. Implemented LLM orchestration to automate email classification, summarization, and action-tracking.

HUBSPOT: Developed a real-time developer collaboration platform. Integrated WebSocket technology for instant messaging and video conferencing to facilitate global technical networking.

EDUCATION

B.Sc. in Computer Science Expected 2027

Rivers State University, Port Harcourt, Nigeria

300-Level Student. Key Coursework: Advanced Algorithms, Network Engineering (OSI/TCP-IP), Cybersecurity, and Complexity Analysis.

CERTIFICATIONS

- SIWES Professional Certification (Technoville Innovation Nigeria)
- [Space for additional technical certifications]
